

# Sound Team

## **What's involved?**

Setting up the sound system for Sunday morning services, monitoring and managing sound levels and mix throughout the Sunday morning service. Clearing down and shutting down the system at the end of the service.

## **What kind of person is needed?**

People with some technical aptitude and a good ear.

## **What's the commitment?**

Team members are expected to be on site from 9:45am on a Sunday morning and are normally finished by 12:15pm. Most members of the team are on duty about once a month.

## **What training is available?**

New members of the team will be trained by existing members of the team, and the team works in pairs, so there is always an experienced member on duty.

**Who should I speak to?** Charles Marchbank
